Hello Catherine,

Dan said I should check with you on the FOIA request we got on PFAS in pesticide packaging that was listed on an Agency website. Is OPP, OPPT or ORD the lead on this issue. Request letter attached.

Any information you can provide will be helpful.

Earl

Hey Earl – I'm not positive – but there's certainly OPP people working on this. I'm not sure about ORD. There's regional people too.

If we have requests – I'd maybe encourage you to check with Catherine Aubee and see if she can ID our leads.

Dan,

Is the issue with PFAS in Pesticide Packaging something OPP is the lead on or ORD? Here is the Agency webpage <https://www.epa.gov/pesticides/pfas-packaging>.

The request is from Ms. Monica Mercola of Public Employees for Environmental Responsibility (PEER). We had an earlier request from them about PFAS as an inert. I know PEER ran their own tests and found traces of PFAS on some pesticides.

By the way Calvin is retiring on February 27. He said he was going this year, but I was under the impression he was sticking around a little longer. My job just got even more difficult.
